## **Noise Alert**

Issue Date: 12/7/2017

LOS ANGELES INTERNATIONAL AIRPORT (LAX)  
DEVIATION FROM OVER-OCEAN OPERATIONS  
December 11 – 13, 2017  
12 AM – 6:30 AM

Deviation from Over-Ocean Operations is expected to occur for three nights (12 AM – 6:30 AM) on Monday, December 11<sup>th</sup> through Wednesday, December 13<sup>th</sup>, due to the closure of south outboard runway 25L/7R for maintenance.

Whenever possible, the FAA transitions [LAX air traffic flow](#) to Over-Ocean Operations from 12 AM to 6:30 AM, wherein aircraft arrive and depart over the ocean to minimize noise disturbance to the communities directly east of the airport. During this traffic flow, the south runway complex is utilized primarily for departures while the north runway complex is utilized primarily for arrivals.

The closure of Runway 25L/7R requires Design Group VI aircraft (A380 and B747-800) to depart on Runway 24L/6R on the north complex, which would conflict with aircraft arrivals on the same runway complex during Over-Ocean Operations. Therefore, the FAA may deviate temporarily from this traffic flow and maintain air traffic in Westerly Operations during these three nights. As a result, persons living near the airport may notice a change in aircraft flight activity and noise.

Thank you for your understanding and patience during this temporary situation.
